## Registration

- **High School Students**

Students enrolled in the high schools that are served by the East San Gabriel Valley Regional Occupational Program and Technical center will register through their **local school counselor**. This can be done at the same time they are registering for classes offered through the school and throughout the year.

- **Parents and Other Adult Students**

Most ROP classes are available to adults. There is a registration fee and a tuition fee for adults. Registration Fee is \$40 (non-refundable). Tuition is determined at time of enrollment. Individual class fees are prorated. For information call the Adult Career Training Department at (626) 472-5160. Some classes have additional materials fees. Check with teacher for fee amount. Some adults may qualify for fee exemption and/or financial aid based on income. Check with the Adult Career Training Office for income qualifications.

**FINANCIAL AID IS AVAILABLE • PELL GRANTS ARE AVAILABLE**

*College Plus*

Students who enroll in classes with the *College Plus* logo and who successfully achieve the competencies taught in this program may be eligible for advanced placement and/or college credit. See Page 15.

University of  
California  
A-G Approved  
(UC A-G)

Courses which are designated "UC A-G" have been approved by the University of California as meeting the requirements for admission to the UC/CSU systems.

## Class Time Schedule

Classes are scheduled to begin Tuesday, **September 6, 2011**. However, most classes have an "open-entry, open-exit" policy (after the first 2 weeks of class, call individual instructor for placement in class). Specific times are listed beginning on Page 9. Classes with worksite training may have additional hours in the community. In general, ROP/TC daytime classes are scheduled to meet during the following four sections:

10:00 – 12:00 p.m. (B Section)

1:00 – 3:00 p.m. (C Section)

3:00 – 5:00 p.m. (D Section)

**Evening Classes are available.**

For more information call:  
(626) 472-5160

**PLEASE NOTE: In addition to the hours posted in the Schedule of Classes, many classes require additional lab hours as scheduled by the Instructor.**

# Course Descriptions

## See Pages 9-14 for Class Schedules

### A+ CERTIFICATION PREPARATION: Micro-Computer Repair and Maintenance

Information Technology Sector – Pg. 13

Prepares students to install, program, operate, maintain and service computers. Includes instruction in diagnosis, detection, isolation, and correction of malfunctions. Instruction includes A+ certification preparation and an introduction to networking (N+). Pre-requisites: Students must have basic keyboard knowledge. Computer experience is preferred. Adult fees.

### ACCOUNTING

Finance & Business Sector – Pg. 11

Introduces the principles and processes involved in manual double-entry accounting systems including the use of journals, ledgers, and worksheets, preparation of income statements and balance sheets, banking, petty cash, and payroll. Students who successfully achieve the competencies taught in this program may be eligible for advanced placement and/or college credit. (See Page 15)

*College Plus*

### ADMINISTRATION OF JUSTICE

Public Services Sector – Pg. 14

Students are prepared for basic training in the field of law enforcement as well as being trained for employment as security guards in on-site locations. The class is conducted as a law enforcement academy involving physical as well as classroom training. Good reading and writing skills are recommended for optimum success. Students who successfully achieve the competencies taught in this program may be eligible for advanced placement and/or college credit (See Page 15).

*College Plus*

UC A-G Approved

### AMERICAN SIGN LANGUAGE

Education, Child Development Sector – Pg. 10

This course is designed to teach students the fundamentals of Sign Language. Emphasis will be placed on conversational skills, careers in interpretation for the deaf, knowledge of deaf culture and understanding the deaf community. Total participation is necessary in order to learn and attain fluency in the language; activities will include student work in pairs or groups, role playing, skits, songs, and impromptu presentations.

UC A-G Approved

### APPAREL MANUFACTURING AND DESIGN

Fashion & Interior Design Sector – Pg. 11

Students will apply and refine previously-learned sewing and designing skills, as well as acquire innovative techniques for a more professional "finished" product. Through the use of mechanical and computerized technology, they will expand their knowledge of current tools and machinery, while constructing an originally-designed garment. Instruction will include the art and techniques of illustration, draping and pattern making/drafting. Students will research a career in the field of Clothing & Textiles, develop a professional career portfolio, and look into the glamorous world of fashion design, manufacturing and merchandising. Advanced studies will include fashion show production.

### AUTOMOTIVE TECHNOLOGY (Elementary – Year One)

Public Service Sector – Pg. 14

This NATEF\*-certified program introduces students to the field of automotive technology covering careers, tools and equipment, use of manuals, safety, fluid maintenance, fasteners, gaskets and seals, the fundamentals of engine construction and operation and engine tune-up. Students will be exposed to the automotive business and industry and will be provided with entry-level job skills. \**National Automotive Technicians Education Foundation.*

### BUSINESS MANAGEMENT AND MARKETING

Finance & Business Sector – Pg. 11

This program prepares students to perform marketing and management functions using basic business concepts and procedures. Students will be instructed in principles and methods for organizing a business, business forms, partnerships, combining resources to produce goods and services and the nature and extent of competition in the business community.

*College Plus*

UC A-G Approved

### BUSINESS MATH: Algebra for Business and Technology

Finance & Business Sector – Pg. 11-12

This is an alternative math course offering students practical math skills needed for business and personal applications. This course presents fundamental mathematics in the context of business and consumer applications. Interesting problems help students learn to meet financial challenges with math-based solutions. Interesting problems using design-based methodologies help students learn algebraic skills needed in business and technology related fields.

*College Plus*

UC A-G Approved

### BUSINESS OFFICE SKILLS

Finance & Business Sector – Pg. 12

Business Office Skills provides students the opportunity to apply office practice and computer literacy skills on the job at worksites. Students will receive supportive instruction in basic employability skills, problem solving, career planning, job acquisition and interpersonal skills such as teamwork and leadership.

### CABINETRY DESIGN AND CONSTRUCTION

Building Trades & Construction Sector – Pg. 10

This course includes instruction on techniques and use of tools for the Cabinetry trade. Students will learn industry standards in cabinetry, joinery, assembly procedures, finishing techniques, project planning and woodworking terminology.

# Course Descriptions

See Pages 9-14 for Class Schedules

## CAREER TRAINING FOR TRANSITION

Education, Child Development Sector – Pg. 10

Students will be introduced to service occupations stressing the relationship between academic and job skills. Included will be career preparation, communication, inter-personal skills, problem solving, safety, technology and other employment skills. Enrollment by counselor or teacher referral may be required for some classes.

## CAREERS WITH SOCIAL IMPACT

Public Service Sector – Pg. 14

This course examines the core ideas and controversies in social welfare and human services. Students learn sociological history, theory and methodology, the ethical standards adopted by human services professionals, and the language, culture, and key conflicts associated with the field. Students explore the issues surrounding community service professions and learn essential skills such as observation, report writing, accessing resources, and analyzing the efficacy of social programs, as well as specific case management plans.

## COMMERCIAL ART (Digital Photography)

Arts, Media & Entertainment Sector – Pg. 9

This one year course introduces the student to the creative, rapidly expanding field of commercial art. Art history, culture and heritage, art criticism, creative expression and aesthetics are emphasized as students use traditional and technological media to solve problems in advertising design, animation, computer imaging, graphics and illustration. This course is designed to meet A-G requirements for Visual and Performing Arts.

UC A-G Approved

## COMPUTER AIDED DRAFTING/DESIGN (CADD)/ARCHITECTURAL DRAFTING

Information Technology Sector – Pg. 13

This course is an intensive study in computer graphics utilizing AutoCAD 2000 software. Combined with technical drafting standards, students use CADD to produce 3D graphic models for mechanical and/or architectural components. Upon completion of this program students will have the skills necessary to function as a CADD technician in various disciplines such as mechanical, architectural, civil, or electrical design drafting, as well as 2D/3D illustration and visualization, using the animation component of the software. Students who successfully achieve the competencies taught in this program may be eligible for advanced placement and/or college credit (See Page 15). Basic computer knowledge preferred. Adult fees.

*College Plus*

UC A-G Approved

## COMPUTER SCIENCE: Java Programming

Information Technology Sector – Pg. 13

The goal of this beginning course in Java is to teach the fundamentals of the language. Java is the language of the Internet and is often used to create applets and other Net-based applications. However, before a student can create these types of applications, he or she must understand the basic elements of the language. By the end of this course, the student will have a solid foundation that will enable them to start writing their own programs and applets.

## CONTEMPORARY COMMUNICATIONS

Finance & Business Sector – Pg. 12

An integrated Business English course that meets the *University of California A-G requirements.*

*College Plus*

UC A-G Approved

## DIGITAL ANIMATION

Arts, Media & Entertainment Sector – Pg. 9

This is an introductory course for all students interested in computer generated three-dimensional modeling. Students will learn techniques used to create virtual models of environments, buildings, machines, vehicles, people and animals, as used for computer animation and interactive games.

## EARLY CHILDHOOD EDUCATION

Education, Child Development Sector – Pg. 10-11

This course is designed to provide students with classroom and hands-on training, while assisting teachers in infant, toddler, and preschool programs, elementary schools, and special education programs. Students will be instructed in appropriate practices, creativity, critical thinking, problem solving, career preparation, and employment skills in early/elementary education. Students who successfully achieve the competencies taught in this program may be eligible for advanced placement and/or college credit (See Page 15). Adult fees.

*College Plus*

## EMERGENCY MEDICAL SERVICE (Introduction)

Health Science & Medical Technology Sector – Pg. 12

Students will have an introduction to health team responsibilities regarding emergency calls, evaluation of emergency and appropriate action to prevent future injury. Prerequisites: 16 years of age, 11<sup>th</sup> or 12<sup>th</sup> grades. (This course is offered Fall Semester only)

## ENERGY EFFICIENT CONSTRUCTION

Technology Sector – Pg. 10

This course has been designed to give students entry-level employment skills as construction trade helper in the following areas: carpentry, plumbing, remodeling techniques, electrician, dry-wall applicator, tile setter, and painter. Students gain hands on experience by building an energy efficient single-family residence from start to finish.

## ENTERTAINMENT ACADEMY

Arts, Media, & Entertainment Sector – Pg. 9

This course emphasizes the major facets of production including: singing, dancing and staging. Areas of performance instruction include: proper solo/ensemble singing, choreographed movement, showmanship strategies, microphone techniques and costuming/make-up techniques. Behind-the-scenes opportunities include production marketing, casting, prop and set design, audio and lighting design.

UC A-G Approved

# Course Descriptions

See Pages 9-14 for Class Schedules

## ENVIRONMENTAL SCIENCE

Energy & Utilities Sector – Pg. 11

This course provides an overview of the main principles and applications of environmental science by introducing students to employment and advanced training opportunities in environmental waste management, water reclamation, and hazardous removal and related laboratory and equipment services. **UC A-G Approved**

## FOOD SERVICE & HOSPITALITY

Public Service Sector – Pg. 12

This course prepares students for food production, food preparation, customer service and teamwork skills for employment. The Food Service and Hospitality program effectively prepares students with the knowledge, skills, attitudes, and behaviors needed to successfully enter the job market or transition to postsecondary education programs at a community college, private and/or four-year college or university. Instruction includes topics such as planning, selecting, storing, purchasing, preparing, testing, serving and selling quality food and food products. Other areas of study include nutritive values, safety and sanitation, use and care of commercial equipment, management of food establishments, cost and profitability analysis, side work and customer orders, and handling cash and credit transactions. *College Plus*

## FORENSIC SCIENCE (introduction)

Public Services Sector – Pg. 14

This course will introduce students to crime scene investigation, evidence collection and preservation. Topics of study include photographing the crime scene, fingerprinting techniques and analysis, and the identification and evaluation of biological and trace evidence. Recommended for students enrolled in Administration of Justice.

## GEOGRAPHIC INFORMATION SYSTEMS (GIS)

Technology Sector – Pg. 13

GIS is a sophisticated cutting-edge tool that can be mastered easily by students and applied to numerous student research projects. This class will assist students in learning how to input, store, analyze and present information linked to a location using GIS software. GIS software is used to solve problems in marketing, ecology, agriculture, crime and accident prevention, the delivery of social services and medical care, and much more. **Prerequisites:** Students must have basic computer knowledge.

## GRAPHIC ARTS/MULTIMEDIA

Arts, Media, & Entertainment Sector – Pg. 9

Students receive a foundation of up-to-date classroom instruction in graphic design, pre-press layout, multimedia presentation and web page design using today's latest software and state-of-the-art Macintosh computers. Using Adobe Photoshop, Illustrator, PageMaker, Adobe Go Live, and QuarkXPress, students will demonstrate the use of the programs for photographic image rendering and manipulation, drawing and coloring, ad design, graphic and text placement, and page layout. **Prerequisites:** Completion of Graphic Arts/Printing, a basic art course, Introduction to Computer or Office Technology. **Required course materials:** 1" white 3-ring view binder, minimum of one 100 Megabyte Zip Disk (250 Megabyte disk will not work), access to 35mm camera or disposable 35mm camera. **UC A-G Approved** *College Plus*

## GRAPHIC ARTS/SILKSCREENING

Arts, Media, & Entertainment Sector – Pg. 9

Students receive instruction in fundamental graphic arts career technical skills which include: silk screening; airbrushing (to create T-shirts and illustrations); commercial art color theory; logo design; calligraphy; glass etching; lettering; paste-up; color-cutting; copy preparation work; process camera and offset press theory; and hand-cut photographic screen stencil preparation. Some projects may require a materials fee.

## HEALTH CAREERS

Health Science & Medical Technology Sector – Pg. 12

Students are taught skills for entry-level employment in health and medical occupations. Hospital departments are used as training locations. TB tests and flu vaccines are required. **Uniform requirements:** white pants and white shoes.

*College Plus*

## HEALTH SCIENCES

Health Science & Medical Technology Sector – Pg. 12

Health Sciences is designed to provide a combination of subject matter to prepare and encourage the desire for further education in the health care field. Instruction will include lecture, demonstration, and hands-on work. Students earn industry certification in CPR and HIPAA in this foundation course. **Prerequisite:** Intro to Emergency Medical Services. **(This course is offered Spring semester only)**

## MANICURING

Public Services Sector – Pg. 14

A manicurist provides a wide range of nail services for customers. Aptitudes essential to the manicurist are creativity, finger dexterity, eye-hand coordination and ability to relate to people. The 400 hours of instruction (required for State License) are designed to qualify the student for the California State Manicuring Exam. **Prerequisites:** State law requires that students be 16 years of age upon entry into class. Students must wear a designated uniform.

## MARKETING, SALES & SERVICE

Marketing, Sales & Service – Pg. 13-14

This course is designed to develop or improve skills related to entrepreneurship, sales, marketing and merchandising. Students master business operations through community classroom experience and supporting instruction. Training includes work in selling, inventory control, cashiering, display, customer service, and advertising.

## MEDICAL CAREERS

Health Science & Medical Technology Sector – Pg. 12

This class includes general workplace competencies, standard precautions, and CPR for health professionals. Fundamentals of work stems, prefixes, and suffixes are presented with computer-assisted instruction. The basic body systems are reviewed, and anatomical and physiological terms are defined. Emphasis on medical spelling, word pronunciations and definition of terms provides the foundation for medical vocabulary. Integrated throughout the course are career preparation standards.

# Course Descriptions

See Pages 9-14 for Class Schedules

## MICROSOFT OFFICE USER SPECIALIST (MOUS)

Finance & Business Sector – Pg. 13

Students cover the prerequisite skills for MOUS Certification testing offered through Microsoft Corporation. Computers are used in a Windows environment to learn the fundamentals of Microsoft Word, Excel, PowerPoint and Access. Course completion is determined on the mastery of all competencies. Students who successfully achieve the competencies taught in this program may be eligible for advanced placement and/or college credit. (See Page 15) Prerequisites: Students must have a working knowledge of the keyboard.

*College Plus*

## ORACLE

Information Technology Sector – Pg. 13

PL/SQL is a programming language that let's you turn simple data base queries into potent blocks of executable code. This course teaches you to write code that can be shared across the database, forms, and reports. Learn to program procedures, functions, packages, and data base triggers. Develop your skills in data validation and transform raw data into valuable business information.

## RETAIL SALES

Marketing, Sales & Service Sector – Pg. 14

Students are trained for employment in retail sales occupations such as display, sales clerk, and inventory/warehouse person. Merchandising functions and marketing procedures are taught. This is a one-semester course. Second semester is offered only with the approval of the teacher. Students who successfully achieve the competencies taught in this program may be eligible for advanced placement and/or college credit (See Page 15). Appropriate retail dress code is required

*College Plus*

## SPORTS HEALTH CARE

Health Science & Medical Technology Sector – Pg. 12

This course is designed to prepare students for entry-level jobs in the Fitness/Recreation field as a Fitness/Recreation Trainer or Counselor. Students will receive instruction in basic anatomy and physiology, preventative sports medicine, and the fundamentals of fitness.

*College Plus*

## SPORTS HEALTH CARE (ADVANCED)

Health Science & Medical Technology Sector – Pg. 12

This course is designed for students in the student athletic training program, and provides a more in-depth study and application of the components of sports medicine including but not limited to: creative rehabilitative techniques; therapeutic modalities; prevention, recognition, and care of injuries to the upper extremity, trunk, head and face; injuries to the young athlete; drugs in sports; modern issues in sports medicine. Individualized and independent assignments will be included in this course. This course will involve outside-of-class time homework and time required working with athletes and athletic teams.

## SPORTS AND ENTERTAINMENT MARKETING

Marketing, Sales & Service Sector – Pg. 14

This class will provide students with an exciting journey through the world of marketing in sports and entertainment. Students will learn all the foundation skills of marketing and apply them to one of the largest exports to the rest of the world – entertainment in the form of music, film, amusement parks, sporting events, athletic clothing, tourism, and so much more!

## STAGECRAFT

Arts, Media, & Entertainment Sector – Pg. 9

This course is designed to prepare students for entry-level jobs in the theatrical production and stage management industry. Hands-on training will help students gain the necessary skills, knowledge and attitudes necessary to perform the many tasks involved in putting on theater productions.

UC A-G Approved

## TELECOMMUNICATIONS: Web Page Design

Information Technology Sector – Pg. 13

Students will be introduced to JAVA, HTML and WEB page design, as well as other evolving technologies.

## VIDEO PRODUCTION

Arts, Media, & Entertainment Sector – Pg. 9-10

Students will work together as production teams in a "real world" studio to produce game shows, commercials, talk shows and news broadcasts. Course content includes learning skills performed by video camera operators, producers, sound engineers, lighting directors, character generator operators, directors, technical directors, floor directors, set designers, scriptwriters, and on-air talent.

UC A-G Approved

## VIRTUAL ENTERPRISE

Marketing, Sales & Service Sector – Pg. 14

Virtual Enterprise, a simulated business, is set up and run by students to prepare them for working in a real business environment. The students determine the nature of their business, its products and services, its management and structure, and learn the daily operations of a business under the guidance of consultants and with the support of a real business partner.

UC A-G Approved

## VISUAL COMMUNICATIONS

Arts, Media, & Entertainment Sector – Pg. 10

This one-year course focuses on photographic approaches to graphic arts. The course deals with technical aspects of graphic reproduction and also with other areas such as design, critical analysis, aesthetics, and the common ground shared by fine arts and commercial arts. In addition, historical and cultural implications of the development and growth of visual communications will be explored. *This course is designed to meet the University of California A-G requirements for Visual and Performing Arts*

UC A-G Approved
