STUDENT USE OF THE INTERNET AND ON-LINE SERVICES

The district provides access for students to the Internet as an educational tool. Because the Internet is uncensored and can be misused, no student shall be allowed to use the district's access to the Internet unless the student and the student's parent/guardian first sign the district's Student Net Use Agreement. The district will provide reasonable supervision of students using its access to the Internet and attempt to do what is technologically reasonable to prevent students from obtaining access to pornographic or harmful matter. Students using the district's Internet access shall have no right of privacy in their use of that system. Staff may monitor or examine all system activities a student takes part in to ensure proper use of the system. Students who fail to abide by district Internet rules may be subject to disciplinary action, revocation of their privilege to use the system, or legal action as appropriate.
